

**Request for ACS National Meeting Symposium Funding
ACS Division of Inorganic Chemistry**

The ACS Division of Inorganic Chemistry (DIC) invites suggestions for symposia to be organized as part of the inorganic programming (INOR) at the 2018 and 2019 ACS National Meetings. Please submit a brief proposal (this completed interactive PDF) to John Protasiewicz (protasiewicz@case.edu) no later than **February 17, 2017** for consideration at the Spring Executive DIC Committee meeting and no later than **July 25, 2017** for consideration at the Fall Executive DIC Committee meeting. **Late submissions will not be considered.** *Proposals are evaluated biannually (at National ACS Meetings), so there is an advantage to sending proposals in as early as possible (especially since some meetings can receive too many proposals).*

Symposium title:

Organizers:

Affiliation(s):

Email:

Phone:

ACS national meeting at which symposium will be held:

Names and affiliations of proposed speakers:

Diversity: Please indicate speakers bringing diversity (gender, race, career stage, academic vs industrial/gov labs, etc.) with * sign. Please indicate any speakers that have accepted/expressed interest in the symposium using a # sign.

Estimated % diverse speakers:

Scheduling:

Number of half-day sessions:

Scheduling Preferences:

am pm

Sunday

Monday

Tuesday

Wednesday

Coupled poster session:

Budget request \$

*Up to \$2000 may be allocated for each half-day session scheduled on Sunday, Monday and Tuesday; up to \$2500 may be allocated for each half-day session scheduled on Wednesday. Funding will only be provided for the first four half-day sessions of each symposium and should be used to help defray the costs incurred by the speakers (registration and travel expenses).

Other potential sponsors:

Will this symposium be cross-listed with other ACS Divisions?

If yes, list division:

Statement confirming that the funds will be used to help defray the costs incurred by the speakers (registration and travel expenses):

Statement explaining how the symposium will impact inorganic chemistry and address the stated goals of inclusiveness and diversity:

Note: if you are requesting funds for other symposia or meetings (e.g. GRC/GRS, ACS Regional Meetings) please use the general symposium/meeting request form.
