

2018 Inorganic Chemistry Undergraduate Workshop

Fall 2018 American Chemical Society Meeting

Boston, MA

August 19-23, 2018

The Inorganic Division will host promising undergraduate students at the upcoming fall national ACS Meeting (Boston, MA). The division aims to provide students that may be considering applying to graduate programs in the area of inorganic chemistry the opportunity to explore the wide breadth of the Inorganic Chemistry field, identify possible schools/Pis of interest, and utilize the ACS meeting resources for undergraduate students. The workshop will include:

- An opening survey symposium introducing the students to the sessions held in the Inorganic Division, highlighting “must-see” talks and introducing the students to a broad range of inorganic chemistry research.
- A dinner with prominent members of the Division of Inorganic Chemistry including the current Division board and recent award winners.
- All students will present their research as part of the Inorganic Division poster session. Posters will be highlighted on the Division’s website, Facebook, and receive special marking at the session to enable easy navigation.
- The registration fee for the students will be covered by the Division.

We encourage all interested undergraduate, chemistry majors (or chemistry-related majors) to apply to the program. Preference will be given to students who have completed Inorganic Chemistry, are currently rising seniors considering applying to graduate programs, and are involved in undergraduate research in an inorganic field.

A complete application consists of:

1. The one-page application form to be completed by the student nominee,
2. A copy of the student's undergraduate transcript (an unofficial copy is adequate), and
3. One letter of recommendation from a faculty member who knows well the nominee.

The complete application must be mailed to ajmorris@vt.edu. Applications are requested by **March 26th, 2018**. Nominees will be notified of the status of their applications in early April.

Application Form

Inorganic Chemistry Symposium Workshop for Undergraduate Chemistry Majors
Fall 2018 American Chemical Society Meeting
Boston, MA
August 19-23, 2018

Name: _____

Email Address: _____

College/University: _____

Spring 2018 Mailing Address: _____

Telephone: _____

Anticipated Graduation Year: _____

College Major(s) /Minor(s): _____

American Chemical Society Member? Yes No

List of all chemistry courses completed as of December 2018 as well as chemistry courses currently underway in the current semester. Include course number and title. (If any courses have not been completed at home institution, include the name of the institution as well.)

Describe undergraduate research experiences (field, dates, and location of study).

Please indicate which of the Inorganic Chemistry symposia that are of greatest interest. See ACS Call for Papers for Inorganic Symposia listing.
